Comments from the Secretary

To the Governor, Legislature and People of South Dakota:

Most South Dakotans continued to enjoy lower property taxes in 1999 due to action taken by Governor Janklow and the legislature in 1995 and 1998 . . . in fact, homeowners and agricultural

property owners paid a cumulative total of \$346.8 million less in property taxes during the four years since 1995 as the result of those tax relief measures.

This past year has been an active and productive year for the Department of Revenue. "South Dakota Tax Amnesty 1999" provided a unique, one-time opportunity for individuals and businesses to step forward and pay back taxes and interest owed the state while avoiding possible criminal prosecution. Improving taxpayer access through our toll-free taxpayer assistance phone line and through enhancements to our Website; providing more opportunity for taxpayer education; and giving taxpayers the ability to file tax returns and pay taxes through the Internet have been significant accomplishments this year. Searching for ways to maximize revenues under the existing tax structure continues to be one of our primary goals. Improving voluntary taxpayer compliance is the key to enhancing revenues . . . and providing easier access and better education to taxpayers is making this happen. Once again I am pleased to report that revenues increased significantly over the previous year, as you will see in reviewing the statistics contained in this report.

Looking to the future, we will continue to be challenged to determine what changes need to be made to our state's sales tax laws in order to ensure that the sales tax works effectively and equitably in an electronic commerce environment.

This report is intended to provide a good overview of how South Dakota's system of taxation performed in FY1999. Hopefully, the report will be a useful tool to legislators, policymakers and citizens at large . . . not only during the legislative session but throughout the upcoming year.

Respectfully Submitted,

Gary R. Viken
Secretary of Revenue

Tax Revenues by Category and Distribution

The South Dakota Department of Revenue is the principal agency of tax administration for the state of South Dakota. The department collects 34 different state taxes which can be grouped into four main categories: sales, use and contractors' excise taxes; motor fuel taxes; motor vehicle licensing; and special taxes. In fiscal year 1999, the total revenue from these taxes was \$934,536,894. That amount compares with revenues of \$897,132,063 for fiscal year 1998. The figures below illustrate the breakdown of total revenues by category of tax:

Tax Revenues by Category

Sales, Use and Contractors' Excise Taxes	67%
Motor Fuel Taxes	13%
Special Taxes	12%
Motor Vehicle Taxes	8%

Once collected, the tax revenues are distributed to three primary locations: the state's general fund, local units of government, and the state highway fund. The chart below shows the percentage of the total taxes received by each group, with disbursements totaling \$934,536,894:

Distribution of Tax Revenues

General Fund	59%
Local Governments	21%
State Highway Fund	16%
Other	4%

An Overview of Tax Revenues

Total Revenues

Revenues collected by the department from taxes and licensing fees totaled \$934,536,896 in fiscal year 1999. This amount is an increase of \$37,404,833 from last year's revenues of \$897,132,063. The major source of this revenue — sales, use and contractors' excise taxes — increased by \$26,629,214. Revenues from fuel taxes decreased by \$6,467,826; special tax revenues increased by \$13,552,913; and motor vehicle licensing fees increased by \$3,690,532. The chart below illustrates the change in total revenues over a five-year period.

Total Revenues - A Five-Year Comparison

Fiscal Year	Total Revenues	Percent of Change
1995	\$742,330,127	5.41%
1996	783,210,742	5.51%
1997	826,658,410	5.55%
1998	897,132,063	8.53%
1999	934,536,894	4.17%
Five-year Average	\$836,773,647	N/A

Revenues by Category

A five-year comparison among the revenues from the four major tax categories shows a consistency in the dollars generated by each category. Sales taxes are clearly first, and motor vehicle fees produce the least revenue. Motor fuel taxes rank second in revenues every year.

Revenues by Tax Category: A Five-Year Comparison

Fiscal Year	Sales, Use and Excise Taxes	Motor Fuel Taxes	Special Taxes	Motor Vehicle Fees
1995	\$482,697,331	\$102,911,151	\$94,258,399	\$62,466,246

A Comparison of South Dakota's Taxes with Those of Surrounding States

While the following chart gives a good indication of the relative rate of taxes in each state, it does not reflect all the variables. For example, while South Dakota applies its sales tax to most services, other states may not.

A Comparison of Tax Rates (As of August 1999)

	State Sales Tax (percent)	Gasoline Tax (cts. per gallon)	Cigarette Tax (ct's per package)	Maximum Rate	Corporate Income Tax		
					Amounts Up to	Maximum Rate	Amounts Over
South Dakota	4	22*	33	[NO TAX]
Iowa	5	20	36	6	25,000	12	250,000
Minnesota	6.5	20	48	9.8	[Flat Rate]
Montana	NO TAX	27	18	6.75	[Flat Rate]
Nebraska	5	24.1**	34	5.58	50,000	7.81	50,000
North Dakota	5	20	44	3	3,000	10.5	50,000
Wyoming	4	14***	12	[NO TAX]

*Rate changed April 1 from .18 to .22

**Rate subject to periodic change

***There is an additional 1-cent per gallon license tax

The chart above illustrates the differences in the rate of taxes among states in the region. The chart below shows how different tax rates affect individual taxpayers and compares this effect with the rest of the nation. In 1999, South Dakotans paid an average of \$7,844 per person in federal, state and local taxes. The national average in 1999 was \$9,881, and only seven states had lower total taxes as a percentage of income than South Dakota.

Distribution of Taxes

In fiscal year 1999, the department collected \$934,536,896 in taxes. Those dollars were then distributed to various funds and units of government. The largest portion of revenues, 59%, is deposited in the state's general fund. The chart below shows the taxes that produce the revenues and the manner in which the revenues are distributed.

(1) The state retains a minimum administrative fee, which varies from 1.25% to 1.8%.

(2) Revenue from reservation taxes is distributed to the reservation on a proratable basis based on the percentage of Indian population on the reservation and a proratable percentage retained by the state based on the percentage of non-Indian population on the reservation. The state also retains 1% of the revenue credited to reservations as an administrative charge.

(3) An exception exists regarding banks organized pursuant to SDCL 51A-2-38 to 51A-2-43, inclusive. 95% of the revenue derived from that tax is deposited into the State General Fund, while 5% goes to the county where the bank is located.

(4) Revenues from mining companies licensed after January 1, 1981, are split as follows: 80% to the state, 20% to the county of production (subject to a \$1 million cap).

(5) If the energy development fund has a balance of less than \$100,000, then one-sixth (1/6) of the revenue is deposited in that fund until the balance reaches \$100,000.

(6) 100% of the tax collected is placed in the Environment and Natural Resources fee fund.

(7) Revenue from devices located outside municipalities is deposited into the State General Fund. If the amusement device is located within the boundaries of a municipality, then the revenues are remitted to the municipality.

(8) Motor Fuel refunds are deducted first and then the remaining monies are divided as follows: Each July, an amount equal to the number of snowmobiles licensed as of July times 100 gallons times the tax rate is transferred to a fund for snowmobile trails; an amount equal to the number of licensed motorized boats times 100 gallons times the tax rate is transferred to the parks recreation fund; an amount equal to 35% of claimed refunds not to exceed \$850,000 in 1993 and not to exceed \$1,500,000 thereafter is transferred to the conservation commission; the taxes collected under the provisions of the International Fuel Tax Agreement are transferred to member jurisdictions; and 2% is transferred to the Motor Fuel Tax Administration Account.

(9) 1.0% is deposited in the Motor Fuel Tax Administration Account, and 42% goes to the Capitol Construction Fund. The remaining balance is deposited in the Petroleum Release Compensation Fund.

(10) Other prorated fees: duplicate cab card, trailer fees, tractor registration fees, and transfer fees are deposited in the State Highway Fund. Trailer ID fees and duplicate plates are deposited in the License Plate Special Revenue Fund (LPR). Title and penalty fees and administration fees are deposited in the State Motor Vehicle Fund (MVF).

(11) 2.0% is deposited in the State Motor Vehicle Fund (MVF), and 2.5% goes to the License Plate Special Revenue Fund (LPR).

(12) 80% goes to Game, Fish & Parks, 20% to State Motor Vehicle Fund (MVF).

The General Fund: Where Does the Money Come From?

General fund receipts for fiscal year 1999 totaled \$766,864,197. Following is a breakdown of where the funds come from:

Sales, Use and Contractors' Excise Taxes	59%
Special Taxes and Fees	11%
Other Sources	30%

Revenues by Type of Tax

The department administers 34 separate taxes and fees. In fiscal year 1999, the revenue produced by these taxes varied from a low of \$100 to a high of \$413,528,845. In addition, the amount of revenue generated by individual taxes fluctuated by as much as -45.31% from fiscal year 1998 to fiscal year 1999.

A Chronology of Tax Legislation

In 1913, the legislature enacted the first state tax — a license fee on non-commercial vehicles. Since that time, a number of major expansions and changes have occurred. The following chronology shows the tax history of South Dakota.

Major Legislative Changes

1913 License Fees, Non-Commercial

1999 Last Major Change: Fees increased on non-commercial vehicles by an average of \$12. Motor home fees increased. Travel trailers no longer qualified for ID plates.

1915 Inheritance Tax

1999 Last Major Change: Increased lineal issue inheritance tax exemptions beginning in 2000.

1933 License Fees, Commercial

1982 Last Major Change: License fees were restructured.

1933 Motor Fuel

1999 Last Major Change: Tax increased on April 1 from \$.18 to \$.22 per gallon.

1935 Alcohol Beverage

Spirits - 1987 Last Major Change: \$3.80 to \$3.93 per gallon. **Malt Beverages** - 1987 Last Major Change: \$8.30 to \$8.50 per barrel. **Table Wine** - 1987 Last Major Change: \$.90 to \$.93 per gallon.

1935 Sales Tax

1995 Last Major Change: Removed 30 sales tax exemptions to fund 20% property tax credit.

1937 Cigarettes

1995 Last Major Change: Increased from \$.23 to \$.33 per pack of 20 and \$.29 to \$.42 on packs of 25.

1937 Motor Vehicle Registration

1996 Last Major Change: Changed fees for personalized plates from \$75 initial fee plus \$10 per year to \$25 per year with no initial fee.

1939 Bank Franchise

1991 Last Major Change: Decreasing tax rate on income over \$500,000,000.

1939 Use Tax

1995 Last Major Change: Removed 30 use tax exemptions to fund 20% property tax credit.

1941 Special Fuel

1999 Last Major Change: Tax increased on April 1 from \$.18 to \$.22 per gallon.

1965 Interstate Fuels

No major changes made since implementation.

1975 Mineral Extraction

1994 Last Major Change: Changed from gross yield and net income to gross production (\$4.00 per ounce of severed gold) and 10% net income.

1977 Energy Minerals

No major changes made since implementation.

1979 Contractors' Excise Tax

1995 Last Major Change: Increased the tax rate on utility contracts from 1.5% to 2%.

1988 Tank Inspection Fee

1993 Last Major Change: Increased from \$.01 per gallon to \$.02 per gallon on all petroleum products introduced into this state.

1995 Other Tobacco Products Tax

1995 Last Major Change: 10% tax imposed on the wholesale purchase price of other tobacco products.

1998 Alcohol Beverage: Cider

1998: Cider was added as a category at a rate of \$.28 per gallon.

A Description of Individual Taxes

Each tax category (sales, fuel, special and motor vehicle licenses) contains a number of individual taxes. These individual taxes vary in purpose, application and rates. The following list gives the name of the tax, a description of its application, its location in statute and the rate or base for calculation.

Tax	Description
Alcoholic Beverage Brand	Malt and cereal beverages and wines; alcoholic cordials, liqueurs, cocktails, etc.; distilled spirits, whiskeys, gin, rum, brandy, vodka, etc. Imposed on all brand labels registered and offered for sale by distillers, manufacturers, vintners and breweries importing products into the state. Sales, Use and Contractors' Excise Taxes

Total Revenues

Sales, use and contractors' excise taxes produce the largest portion of the state's tax revenues. These revenues come from over 59,000 businesses that currently pay sales, use and contractors' excise taxes on their products or services. Revenues from sales taxes made up 67% of the total revenues in fiscal year 1999.

A Percentage Breakdown of Sales, Use and Contractors' Excise Tax Revenues

In fiscal year 1999 sales, use and contractors' excise taxes in South Dakota totaled \$618,063,034. Within this category are four types of tax: state sales and use taxes; state contractors' excise taxes; city sales, use and contractors' excise taxes; and reservation taxes. The chart below illustrates the percentage of the \$618 million in total tax produced by each tax type.

State Sales and Use Taxes	66.9%
City Sales, Use and Excise Taxes	25.6%
State Contractors' Excise Taxes	7%
Reservation Taxes	.5%

Municipal and Reservation Taxes

While cities and Indian reservations set their own tax rates, the administrative task of collecting municipal and reservation taxes is performed by the department. The dollars are then distributed to the taxing units based on the amount collected from each city or reservation.

During fiscal year 1998, two municipalities enacted local sales taxes. In fiscal year 1999, five more municipalities implemented a local sales tax, bringing the total number of local governments with sales and use taxes to 184 (plus four reservations). This figure indicates the number of local governments maintaining local sales taxes, NOT the number of taxes and tax rates. Some local governments have several different rates. The maximum local rate that can be levied in South Dakota is 3%.

In comparing South Dakota's local sales taxes with surrounding states, only one state has more local governments which implement a sales tax: Iowa has 543 with a maximum local rate of 1%. Nebraska has 96 with a maximum local rate of 1.5%; North Dakota limits the maximum local rate to 1.75% with 54 local governments implementing sales taxes; and Wyoming has 23 such local governments with a maximum rate of 2%. There is no local sales tax in the state of Montana.

Special Taxes

Total Revenues

The revenues collected in fiscal year 1999 from the category of Special Taxes were \$112,648,364. This tax category includes cigarette excise taxes; inheritance taxes; bank franchise taxes; ore taxes; energy mineral severance taxes; coin-operated laundromat license fees; beer,

wine and distilled spirits taxes; gaming excise taxes; beer and liquor license fees; other tobacco products; and alcohol beverage brand registration fees.

The Special Tax category can be divided into five major types: bank franchise taxes, inheritance taxes, alcohol taxes, cigarette taxes, and mineral and severance taxes. The chart below illustrates the percentage of revenues produced by each type of tax. In fiscal year 1999, bank franchise and bank card taxes generated over 45% of special tax revenues.

Fuel Tax and Motor Vehicle Licensing

Total Fuel Tax Revenues

Fuel taxes include taxes on gasoline, ethanol blend, aviation fuel, jet fuel, liquid petroleum gas (LPG) and diesel fuel. In fiscal year 1999, there were 2,735 fuel licenses in South Dakota, but only 1,196 licensees report and remit the tax. Fuel tax revenues for 1999 totaled \$121,955,576.

Of the three types of fuels sold in South Dakota, motor fuel (gasoline) and undyed diesel are by far the most significant, producing 85.1% of the total fuel tax revenues in fiscal year 1999. The chart below illustrates the percentage of the total fuel tax revenues produced by each type of fuel.

Tax Revenues by Category

Motor Fuel (Gasoline)/Special Fuel Tax	85.1%
Tank Inspection Fees	12.0%

Motor Vehicle Licensing

Commercial registration fees are licensing fees levied on intrastate and interstate motor carriers doing business in the state. The amount of the fee for interstate registration is determined by the percentage of miles the carrier travels in all the states. Over 95 percent of the fees are used by the state and counties to maintain public roads.

Prorate registration revenues during fiscal year 1999 were \$9,937,082. Of this amount, 54% was used to maintain state highways, 41.5% was used to maintain county highways, 2% went to the State Motor Vehicle Fund and 2.5% to the License Plate Special Revenue Fund.

Titles and Registration

Any vehicle operated on South Dakota's roadways, including mobile homes, trailers and snowmobiles, must have a title verifying ownership. If used on public roadways or waterways, the vehicle or boat must also be registered. Registration is confirmed by the issuance of a license plate, decal or permit.

Title, registration and other associated fees produced revenues of \$64,449,816 in fiscal year 1999. This amount was an increase of 5.4% from fiscal year 1998 and an increase of 11.9% over fiscal year 1997. Of that amount, 64.9% was distributed to the Department of Transportation; 25.0 to local governments; and the remaining 10.1% to other programs.

Property Taxes

Property taxes in South Dakota are part of a larger system of taxation that includes sales taxes, fuel taxes, motor vehicle licensing and a wide variety of special taxes. Property taxes are local taxes, and are the primary source of dollars for school systems, counties, municipalities and other local government units. Consequently, their administration is a local responsibility. The authority of the Department of Revenue is limited to assisting local government units in making property tax assessments that are fair and in compliance with the law. The department does not collect or use property taxes.

How Property Taxes are Applied

Property owners in South Dakota may be taxed by two or more of the following units of government: cities, counties, townships, school districts, water districts and, in some cases, units such as fire and sanitary sewer districts. There are three steps that are common to the application of property taxes in each government unit.

1

Establishing the Value of Property

The first step is to establish the value of all the property within the boundaries of each unit of government. Because all property is not of equal value, individual values are arrived at based on the price the property would bring if sold. This selling price, determined by the sale price of comparable properties and known as the true and full value, is what establishes the value of the property.

2

Establishing the Amount of Tax

The second step is to determine the amount of taxes needed to meet the cost of operating a unit of government. The higher the cost of operating the city or school district, the larger the revenues required from property taxes. Revenues from property taxes, combined with other monies such as federal grants, must equal the size of the budget of the unit of government.

3

Establishing a Tax Rate

The third step, establishing a tax rate to apply to individual pieces of property, is based on steps one and two. The tax rate for all property in a local unit of government is arrived at by dividing the value of all the property into the amount of the budget that is unfunded from other sources.

This calculation results in a tax rate expressed in dollars of property value, or “dollars per thousand.” If the dollars per thousand were \$4, the tax on a home valued at \$50,000 would be calculated at $\$4 \times 50$ and would result in a tax of \$200.

In practice, all the tax rates that apply to a property are added together, resulting in a single tax levy. This single levy is always the product of two or more tax rates assessed by different government entities, as illustrated on the top of the next page.

Local Units of Government Taxing a Hypothetical Parcel of Property

Property "X" taxed at a rate of \$45.37 per thousand dollars of taxable value.

<u>Unit of Government</u>	<u>Amount of Tax</u>
School District Tax	\$17.88 per thousand
County Tax	10.09 per thousand
City Tax	16.75 per thousand
Township Tax	0 per thousand
Water District Tax	0.25 per thousand
Fire District Tax	0.30 per thousand
Sanitary District Tax	0.10 per thousand
TOTAL	\$45.37 per thousand

Property Tax Variables

Three major variables affect the taxes on an individual piece of property:

1. The size of the combined budgets of the governmental units taxing the property;
2. The value of all the property in the governmental unit;
3. The value of the individual piece of property.

A change in any one of these variables will change a property owner's taxes, resulting in either an increase or decrease in taxes owed. The chart below illustrates the effect of changes made in property tax variables and the impact of those changes on an individual's property taxes.

The Effect of Changes in Property Tax Variables on a Parcel of Property

If local government budgets decrease	AND	The value of property in the gov't unit as a whole remains the same	AND	The value of the individual's parcel of property remains the same	TAXES DECREASE
If local government budgets remain the same	AND	The value of property in the gov't unit as a whole decreases	AND	The value of the individual's parcel of property remains the same	TAXES INCREASE
If local government budgets remain the same	AND	The value of property in the gov't unit as a whole remains the same	AND	The value of the individual's parcel of property decreases	TAXES INCREASE

Limits on Property Taxes

Although budgets control the size of a political subdivision's taxes, there are limits on the amount of taxes that can be levied. Each unit of local government is limited in the dollars per thousand it may tax. For example, the maximum rate for municipalities is \$27 per thousand, while the maximum rate for townships is \$3 per thousand dollars of property value.

The following chart compares the effective tax rate in 25 of South Dakota's largest municipalities (non-agricultural property) and townships (agricultural property). The effective tax rate is the percentage of a property's assessed value that will be paid in taxes. For example, if the effective tax rate is 2%, and the selling price of the property is \$150,000, the taxes would be approximately \$3,000 per year.

There are three separate tax rates for school general fund purposes. Therefore, three categories of effective tax rates are listed: Agricultural, Owner-Occupied and Other (all property that is not agricultural or owner-occupied).

Sales to Assessment Ratio Analysis

One factor determining the amount of tax levied on a parcel of property is the value assigned to the property. If, for example, the rate of tax is \$4 per thousand dollars of value and the value of the property is determined to be \$30,000, the tax will be \$120. On the other hand, if the property is valued at \$40,000, the tax will be \$160.

The accuracy of assessments can be evaluated by comparing them with the actual sale prices of property. The Sales to Assessment Ratio Analysis in the following chart compares, by county, the assessed value of property with its real value (i.e. sale price). The ratio is expressed as a percentage and is found by dividing the assessed value by the selling price. Thus, a parcel assessed at a value of \$32,000 and selling at \$40,000 would have an assessment/sales ratio of 80%.

Audits

To insure that businesses are correctly reporting their taxes, the Department of Revenue performs regular audits on financial records. An audit may be conducted on any tax license holder, in-state or out-of-state, large or small.

Audits result in the correction of errors made by businesses in the payment of taxes. These corrections meant an additional \$8,853,244 in tax revenues (assessments and penalties) in fiscal year 1999.

Collection Allowances

There are some allowances given to taxpayers that reduce the amount of taxes collected by the department. Allowances are given to tobacco distributors, and fuel suppliers and marketers.

The chart below demonstrates the type and the amount associated with each allowance for fiscal year 1999.

Allowances FY 1999

Tobacco Distributors	3.5% of the value of the tax indicia they purchase.	\$726,062.88
Fuel Suppliers/Marketers	2.25% of the tax paid. One-third is kept by the supplier and the remaining two-thirds is given to the marketer.	\$2,551,807.40
Importer	Two-thirds of the allowance in 10-47B-34.	\$22,353.52

Tax Refund Programs

Tax refunds are an essential part of South Dakota's tax system. They apply to two groups: (1) consumers using vehicles and equipment off highways and roads for agricultural or commercial purposes who may receive motor fuel tax refunds; and (2) the elderly and disabled who are eligible for sales and property tax refunds.

Motor Fuel Tax Refunds

Motor fuel used to operate agricultural and commercial equipment, other than aircraft, off of roads and highways is not subject to fuel tax. Consumers documenting this off-highway usage are given a motor fuel tax refund. During fiscal year 1999, there were 8,894 refunds totaling \$2,784,593.66. The average refund amounted to \$313.00 in fiscal year 1999 as compared to \$310.19 in 1998.

Effective July 1, 1999, \$.03 of every gallon of gasoline on which a refund is claimed will be deposited into an Agricultural Fund.

Refunds to the Elderly and Disabled

Tax refund dollars for the elderly and disabled affected citizens in every county. Minnehaha County had the largest number of participants with 580, followed by Pennington County with 516, and Brown County with 277.

Department Overview

The administration of the 34 separate types of taxes and fees in force in fiscal year 1999 and collection and distribution of the \$935 million of tax revenues required 195 full-time employees. The total administrative costs were \$11.1 million, of which \$732,993 were general fund dollars.

The Department of Revenue is organized into five divisions and the Office of the Secretary. While the department secretary, division directors, and some staff are in Pierre, divisional field offices are located in communities throughout the state.

Legal Services

The Department of Revenue employed five full time attorneys, three full time Investigative Services Bureau (ISB) Special Agents, and one secretary in fiscal year 1999. The Legal Division also supervised three fraud auditors who work in ISB on a part-time basis. In addition, one full-time Assistant Attorney General was assigned to the Department. During the course of the year, and in addition to the routine legal counsel it provides to the Department, the legal staff worked on over 250 cases dealing with the myriad of taxes administered by the Department. Additional legal support was provided to the Office of Risk Management on its debt collection activities.

The Investigative Services Bureau (ISB), which is staffed by the Special Agents and Fraud Auditors, examined 112 taxpayers regarding allegations of tax fraud. Of these, 47 were investigated for fraud. The rest were closed after finding no criminal violations.

The Supreme Court issued three decisions during the year - one clarifying who can represent taxpayers in administrative hearings; one involving a centrally assessed railroad; and one involving an individual convicted of tax fraud.

Supreme Court Case Summaries

Minnesota Crane Corporation v. Department of Revenue S. Ct. No. 20432

Minnesota Crane Corporation is a Minnesota construction business. In 1997, the Department conducted an audit on Minnesota Crane and issued an assessment for additional taxes. The Secretary of Revenue denied the hearing request, concluding that corporations must be represented by legal counsel in administrative hearings and Minnesota Crane's counsel was not authorized to practice law in South Dakota; therefore, the hearing request was invalid. On appeal, the circuit court agreed with the Department and affirmed the Secretary's decision. The Supreme Court, however, reversed the decision and held that the filing of a request for hearing is not the practice of law, and therefore, such a request does not need to be submitted by an attorney.

Edgemont School District 23-1 and Fall River County v. Department of Revenue and Burlington Northern Railroad

The Edgemont School District and Fall River County appealed a circuit court decision holding that SDCL 10-28-16 mandates distribution of a railroad's statewide value to counties on a prorata mile of track basis. The Supreme Court rejected the District and County's claim and affirmed the circuit court's decision holding that the language of SDCL 10-28-16 is "clear and unambiguous". The Court also rejected the District and County's claim that the statute was unconstitutional, holding that each lacked standing to make such a challenge.

State of South Dakota v. Elmer Ruttman, d/b/a D &E Cafe S. Ct. No. 20508

Elmer "Bud" Ruttman was found guilty on charges that he made false or fraudulent returns in an attempt to evade sales tax. Following a restitution hearing, the circuit court ruled that Ruttman

owed the State \$184,343 in back taxes and interest, plus fines and prosecution costs totaling \$23,000. Ruttman appealed the restitution order claiming that the Department's calculations were unauthorized and incorrect. The Supreme Court affirmed the circuit court's decision holding that the Department's calculations were "clearly supported by the evidence under the "reasonably satisfied' standard" and that a "contrary conclusion would invite inadequate record keeping as a means of evading full payment of the sales tax, which we believe would contravene legislative intent."

Administrative Services

Administrative services has the responsibility of managing secretarial and computer services, budgetary data and the department's physical assets. Its purpose is to increase the efficiency of the operational divisions by providing them with the resources they require to meet their goals. In addition, administrative services manages the department's Remittance Center located in Sioux Falls. The center processed over \$839 million in payments in fiscal year 1999.

Fiscal Year 1999 - Remittance Center

Dollars processed for Department of Revenue	\$725,590,410
Dollars processed for other agencies	113,436,424
Total dollars processed	\$839,026,834
Total documents processed	530,250

Other agencies for which the Remittance Center collects revenues include the Division of Insurance; Game, Fish and Parks; Social Services; Health; Environment and Natural Resources; Human Services; Bureau of Administration; Unified Judicial System; and Retirement.

Departmental Goals

The mission of the department is to fairly and consistently apply the tax laws and establish a comprehensive education program explaining the responsibilities and rights of the taxpayer for the purpose of insuring that the obligations of all taxpayers, to the State of South Dakota, are paid. The department developed a five-year strategic plan in July 1991 to set goals that would insure our compliance with the mission. The goals are listed below:

- To reduce uncollected taxes.
- To simplify the administration of municipal taxes.
- To achieve uniform property tax assessments.
- To reduce unfair tax exemptions.
- To simplify the tax laws.
- To resolve contested audits in a more timely manner.

- To have uniformity in the tribal tax agreements.
- To improve internal processes and take advantage of new technology wherever possible.

Legislative Summary

The 1999 South Dakota State Legislature passed several bills affecting the activities of the Department of Revenue. These bills included legislation relating to sales, use and contractor's excise tax; motor vehicles; and property taxes. Some of these bills are summarized below:

Senate Bill 1	Eliminates the use of certain sales (any real property which sells for more than 150% of its assessed value) in determining the value of other property in the surrounding area.
Senate Bill 14	Makes it a Class 1 misdemeanor to operate an alcoholic beverage business without a license.
Senate Bill 51	Expands current law pertaining to uniform tax administration hearings to include vehicle dealers.
Senate Bill 67	Changes the dates for appealing property tax assessments to the County Auditor from the third Tuesday in April to the first Tuesday in April.
Senate Bill 87	All property tax bills sent by county treasurers will now include the asterisked statement (when applicable) which reads: "INDICATES A LOCAL DECISION TO OPT OUT OF THE TAX LIMITATION."
Senate Bill 110	Persons who file and remit taxes or fees electronically must file returns by the 23 rd day of the month following each monthly period and remit their taxes on or before the second to the last day of the month following each monthly period.
Senate Bill 111	Defines a professional employer organization and allows such groups to deduct certain items from their taxable gross receipts.
Senate Bill 115	Requires people with flooded lands to let the Director of Equalization know where these lands are by way of an application.
Senate Bill 132	Increases lineal issue inheritance tax exemptions over a seven-year period beginning in the year 2000.
Senate Bill 161	Sets property tax guidelines for manufactured homes (includes those classified as manufactured homes and those reclassified as real property).
Senate Bill 177	A pilot program will be developed to allow certain secured parties to directly note and cancel the secured party's liens on the state's computer system.
Senate Bill 205	Bill stipulates that in school districts sending students to nearby school districts, the sum of the levies assessed for ALL funds in the sending district must be equal to or greater than the sum of the levies assessed for ALL funds in the receiving district.
Senate Bill 243	Allows motor vehicle owners to request specialty license plates that allow for the placement of an organization decal on the plates. Only nonprofit corporations and

organizations who meet specific criteria can qualify to have the organization decals printed and distributed.

House Bill 1003	Allows courts to award disbursements (including reasonable attorneys' fees) to anyone who unsuccessfully appeals property assessments, allocations, equalization and distributions.
House Bill 1023	Annual update of references to the Internal Revenue Code.
House Bill 1051	Revises the circumstances under which a fuel excise tax is imposed on all motor fuel or special fuel depending on who is removing the fuel from a terminal, where it is being transported to, and what the fuel will be used for.
House Bill 1060	Emergency legislation which removes certain sales used to value increases in ag land.
House Bill 1091	Expanded the confidentiality coverage of inheritance tax documents to include stipulations filed with the Court.
House Bill 1092	Allows the appointment of a special administrator for probate informally by the clerk of courts.
House Bill 1102	Changes the place of filing disclaimers of property interest an individual is entitled to by will or intestate succession from the Department of Revenue to the Clerk of Courts.
House Bill 1106	Under this bill, a railroad can exercise the right of eminent domain to acquire right-of-way only with the permission of the Governor or the Transportation Commission, if directed by the Governor. It also requires the Department of Revenue to provide statements showing the length of all track to county auditors of the counties through which a railroad runs by the 4 th Monday in August each year.
House Bill 1138	Holds school funding harmless when mobile homes are converted from registered homes to real property and removes the value of converted mobile homes from the computation of local effort, continuing to treat taxes paid on mobile homes as "additional income" to school districts.
House Bill 1140	Aimed at reducing the interest rates payable on delinquent real estate taxes, changing the rate from Category D (1% per month or a fraction thereof) to Category B (10% per year).
House Bill 1146	Eliminates the acceleration of property taxes that occurs when a mobile home owner doesn't pay their taxes on time, and treats such mobile home owners the same as owners of conventional homes paying interest on late payments.
House Bill 1151	Annual bill to provide tax relief at the local level by reducing levies for school general fund purposes.
House Bill 1176	If requested, a county treasurer will mail license plates or stickers to an applicant for a set fee. If the items are express mailed, the applicant will pay for the actual costs of postage and handling.
House Bill 1260	Appropriates \$1 million from the general fund to the Department of Revenue to provide property tax or sales tax refunds to eligible elderly or disabled persons.
House Bill 1266	Provides an alternative for qualifying a residence as owner-occupied by using the certificate of value.

House Bill 1296

Implements a system of fines ranging from \$500 to \$1,000 for alcoholic beverage licensees who violate the provisions of their license.

1999 - Focusing on the Taxpayer

Meeting the needs and concerns of our taxpayers has long been a priority for the South Dakota Department of Revenue, and this past year offered our agency several unique opportunities to encourage voluntary tax compliance while at the same time provide taxpayers with better access to information and education. Following is a brief summary of some of the Department's accomplishments in the area of taxpayer service in fiscal year 1999.

Department of Revenue Toll-Free Phone Center

The Toll-Free Phone Center was implemented in July of 1998 as a means of providing taxpayers with quick, consistent answers to basic tax questions. By the end of its first year of operation (July 1999), the phone center had logged 33,368 taxpayer calls on a variety of issues ranging from what tax forms were needed to start a new business to inquiring about billing notices to how to complete and file a sales tax return.

The phone center is currently staffed by three full-time revenue agents whose primary duty it is to respond to taxpayer questions. By utilizing the phone center to handle basic tax questions and inquiries, the Department's remaining revenue agents are able to concentrate more effectively on more complex tax situations as well as focus on other revenue-producing activities. The 1-800-TAX-9188 number can be found in virtually all Department publications including newsletters, reference guides, applications, even business cards. It has proved to be an effective tool to fostering better communication between taxpayers and the Department and better understanding of the obligations taxpayers have to the state and the Department has to its taxpayers.

South Dakota Tax Amnesty 1999

Nearly 250 delinquent or negligent taxpayers were able to get back on track with filing and paying their state taxes with this special tax amnesty program offered between April 1 and May 15, 1999.

Announced by Governor William Janklow during his 1999 State of the State address, the program offered eligible taxpayers the chance to pay back taxes with reduced interest and penalties. It applied to all state taxes administered by the Department of Revenue with the exception of property taxes and raised \$489,532.65. Amounts paid ranged from as small as \$2.76 to nearly \$37,992 from back payments of sales and use tax; contractors' excise tax; motor fuel taxes; and special taxes. Businesses or individuals who had been operating without a license were also required to complete a license application.

While the funds raised through the Amnesty program provided additional money for a variety of essential state services, the program also served as an excellent reminder to taxpayers of the importance of staying current in paying their taxes.

Department of Revenue Website

The Internet has become a valuable tool for disseminating information to our taxpayers. In 1999, the Department of Revenue continued to work towards its goal of making its website a user-friendly and informative resource for taxpayers, government officials and the general public.

Additions over the past year include a "New Business" page containing basic information for new business owners on how to apply for a tax license, what services are provided by the Department of Revenue, and other government agency contacts; a "Calendar of Important Tax Dates" which includes schedules for upcoming tax seminars and deadlines for filing state tax returns; Black Hills Rally and Races page which offered vendor tax information and allowed vendors to register for rally permits on-line; and on-line schedules and registration for taxpayers wanting to attend the Department's sales, use and contractors' excise tax seminars held in various locations around the state. Currently, there are over 120 forms and publications available to the public on the Department of Revenue website.

In June of this year, the Department's website was selected as a featured site on Study Web, one of the Internet's premier sites for educational resources for students and teachers.

ITI Printers

Faster, more efficient service. That was the goal for the Department's Division of Motor Vehicles when it came to providing new printer technology to South Dakota county treasurer offices in 1999.

In February of 1999, representatives from Intellectual Technologies, Inc. and the Division of Motor Vehicles began installing new printers in county treasurer offices that allowed the printing of both the vehicle registration and license decal for vehicles registered in South Dakota. Hughes and Stanley Counties were the first offices to make use of the new technology which eliminated the need for counties to maintain and secure inventories of pre-printed license plate decals.

With the use of the new printers, county offices can issue more registrations and decals in less time, making the vehicle registration process more efficient for South Dakota taxpayers as well as county officials. During some months in 1999, vehicle registrations were up over 50% from the same period a year earlier.

What does the year 2000 hold for the South Dakota Department of Revenue? A host of projects and improvements that will continue to emphasize the Department's commitment to providing better service to South Dakota's taxpayers.

Taxpayer Rights

South Dakota passed its taxpayer's bill of rights in 1990, formalizing the fundamental principles that have guided the South Dakota Department of Revenue since 1986. These principles are:

- A sincere respect for taxpayers and the importance of their role in providing public services;
- A belief that taxpayers act in good faith;
- An unwavering commitment to the uniform and fair application of our tax laws;
- A conviction that bureaucratic methods of dealing with taxpayers are inappropriate and ultimately ineffective;
- A recognition that our tax system depends on the voluntary compliance of our taxpayers.

The specific rights contained in the South Dakota Taxpayer's Bill of Rights flow naturally from these five principles
